Education

Computer Science

2020 - 2021

Technological Federal University of Parana – Brazil

Computer Information Technology

2021 - Present

Lethbridge College – Lethbridge, AB, Canada

Personal Profile

I am a passionate Web Developer, with about 3 years of programming in different languages, seeking an opportunity to be a junior web developer. I'm a very practical person, open-minded, great at communication. I am ready to help in any way possible with the technologies I already know and with those that I don't know yet and gain a lot of experience.

Work Experience

IOS Developer | Boxes Todo-list

2020 – 2021

- Mainly worked for me building an App for the Apple Store, called Boxes, it is a Todo-list app;
- Experience in business management;
- Schedules and problem-solving Skills

Web Developer | House Market App

2022 – 2022

- On this project, I worked for myself on building a React app mainly focused on Firebase functionality and design for mobile first.
- Experience with different APIs;
- Experience with Firebase Authentication and Firestore;
- Experience with React Routers;
- GitHub link: <https://github.com/layuntaFelipe/house-market-app>

Web Developer | "Apple" Support Desk

2022 – 2022

- It was the first project where I worked on the front and back end of a project, working on my database, and on my own API. Having to learn new technologies, but in the end, every new knowledge learned was worth it, because, in the end, I had built a real-world MERN full stack project that worked perfectly;
- Experience with Backend: MongoDB, NodeJS, Express, and Redux;
- Experience building my own API;
- Experience with BCrypt, JsonWebToken APIs, Axios;
- GitHub link: <https://github.com/layuntaFelipe/support-desk>

Web Developer | Chef's Eye Software

2021 – Present

- ChefsEye is the main project I'm working on right now, and one of the most complex apps I'm building. With a complete backend, with complex database relations, and a responsive, simple, and clean frontend;
- Experience with Backend: MongoDB, NodeJS, Express, and Redux;
- Experience building my own API;
- Experience with BCrypt, JsonWebToken APIs, QRCode, Nodemon, Axios;
- GitHub link: <https://github.com/layuntaFelipe/ChefsEye-Software>

Professional Skills

- FrontEnd: HTML, CSS, Javascript
- Backend: NodeJS, MongoDB, Firebase, SQL, Express, Redux
- IOS: Swift, SwiftUI
