Professional Summary

I am a passionate Web Developer with 3 years of experience in programming. I am seeking an opportunity to be a junior full-stack developer. I am a very practical person, open-minded, and a team player. I am ready to help in any way possible with the technologies I already know and gain experience in those I do not know yet.

Skills

- Frontend: HTML, CSS, JavaScript
- Backend: NodeJS, MongoDB, Firebase, SQL, Express, Redux, Python, PHP
- Managing team
- Problem solving

- Speak English, Portuguese, Spanish
- Quick Learner
- Teamwork
- Active Listener

Experience

Full-Stack Developer | Chef's Eye Software   **2021 – Present**
- ChefsEye is the main project I am working on right now and one of the most complex apps I am building. With a complete backend, complex database relations, and a responsive, simple, and clean frontend.
- Experience with Backend: MongoDB, NodeJS, Express, and Redux.
- Experience building my own API.
- Experience with BCrypt, JsonWebToken APIs, QRCode, Nodemon, Axios.
- GitHub link: https://github.com/layuntaFelipe/chefsEyeSoft

Full-Stack Developer | "Apple" Support Desk   **2021 – 2022**
- First project where I worked on the front and back end of a project, working on my database, and on my own API. Having to learn modern technologies, but in the end, every new knowledge learned was worth it, because in the end I had built a real-world MERN full stack project that worked perfectly.
- Experience with Backend: MongoDB, NodeJS, Express, and Redux.
- Experience building my own API.
- Experience with BCrypt, JsonWebToken APIs, and Axios.
- GitHub link: https://github.com/layuntaFelipe/support-desk

Full-Stack Developer | House Market App   **2021 – 2022**
- On this project I worked for myself on building a React app focused on Firebase functionality and design for mobile first.
- Experience with different APIs.

- Experience with Firebase Authentication and Firestore.
- Experience with React Routers.
- GitHub link: https://github.com/layuntaFelipe/house-market-app

Education

Diploma in Computer Information Technology **2021 – Present**
Lethbridge College – Canada

Bachelor of Computer Science **2020 – 2021**
Technological Federal University of Parana – Brazil

Hobbies

- Racing karts
- Formula 1
